to the Indian Territory with about \$1,000 between them to stake a claim in the new reservation which was opened up by the Government. Yesterday morning they called at the Pour Courts with \$5 cents between them, having lost a large portion of their money in St. Louis speculating in a dice game around Union Station.

They reached St. Louis at 2 o'clock yesterday morning. It was five hours before their train left for the Blue Grass State, so they strolled about the station. Smith had had his pocket picked of nearly \$30 in the Territory, and he did not feel like borrowing money to go to a hotel, especially as Pophan had bought a return ticket for him. So they strolled about the station to see the sights. In the midway they met a man who said he was also from Kentucky and was going that way. Smith got tired walking and took a seat, while Pophan went out for a stroll with the stranger. They walked to a smloon at Fourteenth and Pine streets, where they met a third man. A dice game was begun and Pophan was induced to join. "I thought I would risk just \$30 of my \$30 to see if I could win back what Smith lost," he said. "While I was counting out the money the man I met at the station grabbed the whole roll and ran."

The pelice were notified. Edward Randell of No. 173 Olive street and Charles Platt. a bartender in Canty's raloon, at No. 123 Pine street, were arrested. Pophan identified Randell and a warrant charging grand larceny was issued against him.

WARMER WEATHER AND RAIN FOR THURSDAY PREDICTED

BY R. J. HYATT. Observer of the St. Louis Weather Bureau.

Continued fair weather, with a rising temperature, is the prospect for St. Louis, and a maximum of at least 95 degrees may be expected Wednesday. No rain is in sight for the next twenty-four hours, but unsettled conditions should prevail Thursday night, which may result in precipitation,

The high barometric area which brought such cool weather to this city has passed to the eastward and will be superseded Wednesday by a low area, which brings increased heat. To the extreme west and to our northwest a high barometric area prevails, and the approach of this district Thursday may bring rain to St. Louis.

The high area which has left us brought coler conditions to all places visited, and, as a consequence, comfortable temperatures prevailed at all points of importance Tues day. This high area was of considerable extent, the Atlantic Coast cities profiting by its presence at the same time that the west end of the area was leaving St. Louis and vicinity.

ern points in the same line were also visite by considerable showers, Atlanta, Jackson ville and Montgomery all having rains. Pittsburg, Buffalo and Cleveland enjoyed rainy weather Tuesday, light falls occurring

at each place. Several points in the north of Michigan, in Canada and to the extreme West also had rain, Deaver being one of these. The high temperature and rain produced much humidity in this place.

It was generally clear throughout Missouri and Iowa. Rains seem to accompan the low barometric area on its trip eastwhich will ensue upon the approach of the high area in turn Thursday evening rains

He came to Missouri in 1836, and ettled in the southwestern part of the State. At the age of 29 he began the study of law, and a few years later was admitted to the bar at Springfield, Mo., where his first public service as Judge of the County Court was rendered. He occupied this position from 1842 until 1845, when he was appointed as Deputy United States Surveyo of Lands under General Conway. He was elected to the State Senate in 1851, resigning after three years of service to accept the position of Circuit Judge, tendered him by Governor Polk.

In 1859 he was appointed by Governo Stewart to represent his State before the Land Office at Washington, and in this period he rendered valuable service to the States of Missouri, Illinois and Iowa by saving them thousands of acres of land by defeating, after a fierce struggle, all previ-ous decisions of the Land Office and thus

NEWS OF THE CITY CHURCHES.

Epworth Leaguers Hold Services at Jefferson Barracks.

The Reverend M. J. Breaker, correspondent ng secretary of the Baptist Board of General Home and Foreign Missions, has just returned from a trip in the State. He speaks hopefully of drought conditions. The prob-lem of water for stock, he says, has made necessary a change in the places for hold-ing some of the Baptist Association meet-ings. Receipts for the board are about \$2,000 ahead of this time last year.

The proposed removal of the Baptist Board of Publication interests from their present site on Eighth street is arousing no little interest in the Baptist circles of the city. Mr. Strien, a prominent officer of the Publication Society, will arrive in the city this morning, and a conference will be held in reference to the matter to-day. The Emile Bailding may be chosen for the new location.

The Reverend E. T. Coyrer, pastor of Mount Calvary English Lutheran Church, expects to attend the English Lutheran Synod, which meets at Burfalo August 15. Next Sunday, his pulpit will be supplied by Professor L. M. Wagner, one of the founders of the English Lutheran Synod, and by the Reverend S. S. Kelssier.

Several members of the Epworth League of Cook Avenue M. E. Church, South, went to Jefferson Barracks Monday evening to hold services to which the enlisted men at the barracks were invited. This was the second meeting of the kind. The attendance was larser than on the previous occasion and the soldiers organized a quartetic, which took an active part in the exercises. It is bitended to hold similar meetings in the pavilion every Monday evening until cold weather.

Regular services will be held this evening at St. James's Episcopal Church. The re-ception to the rector, the Reverend E. Duckworth, who has just returned from a trip abroad, will be given Friday night, in-stead of to-night, as had been planned.
